Post Office Box 7068 Pasadena, CA 91109-7068 January 18, 2002

Commissioner:

In response to the Office Action (Restriction Requirement) of June 5, 2001, and in response to the Communication mailed on December 21, 2001, please amend the above-identified application as follows:

In the Specification:

On page 3, delete the paragraph beginning on line 15 through line 22, and replace it with the following:

The disadvantage of this system is that during the regeneration process, where the regenerant flow is from bottom to top, the resin will not be fully compacted due to the tendency of fluidization which causes the regeneration process to be less effective. Because of the low upflow speed of the limited quantity of regenerant as well as the
